Non-GAAP Financial Measures

In addition to GAAP reporting, Broadcom provides investors with net revenue, net income, operating income, gross margin, operating expenses and other data on a non-GAAP basis. This non-GAAP information includes the effect, where applicable, of purchase accounting on revenues, and excludes amortization of acquisition-related intangible assets, share-based compensation expense, restructuring, impairment and disposal charges, acquisition-related costs, including integration costs, purchase accounting effect on inventory, debt-related costs, gain (loss) on extinguishment of debt, gain (loss) on disposition of assets, income (loss) from discontinued operations and income tax effects of non-GAAP reconciling adjustments. internal budgets, calculating return on investment for development programs and growth initiatives, comparing performance with internal forecasts and targeted business models, strategic planning, evaluating and valuing potential acquisition candidates and how their operations compare to the Company's operations, and benchmarking performance externally against the Company's competitors. The presentation of these and other similar items in Broadcom's non-GAAP financial results should not be interpreted as implying that these items are non-recurring, infrequent or unusual. Broadcom believes this non-GAAP financial information provides additional insight into the Company's on-going performance and has therefore chosen to provide this information to investors for a more consistent basis of comparison and to help them evaluate the results of the Company's on-going operations and enable more meaningful period to period comparisons.
