Fourth Quarter Fiscal Year 2017 Business Outlook

Based on current business trends and conditions, the outlook for continuing operations for the fourth quarter of fiscal year 2017, ending October 29, 2017, is expected to be as follows:

	GAAP	Reconciling Items	Non-GAAP
Net revenue	\$4,796M +/- \$75M	\$ 4M	\$4,800M +/- \$75M
Gross margin	48.75% +/- 1%	\$ 687M	63.0% +/- 1%

Interest expense and other	\$100M	-	\$100M
Provision for income taxes	\$92M	\$4M	\$96M
Diluted share count	425M	32M	457M

- Non-GAAP net revenue includes \$4 million of licensing revenue not included in GAAP revenue, as a result of the effects of purchase accounting for acquisitions;
- Non-GAAP gross margin includes the effects of \$4 million of licensing revenue, and excludes the effects of \$662 million of amortization of acquisition-related intangible assets, \$18 million of share-based compensation expense, \$2 million of charges related to inventory step-up to fair value and \$1 million of restructuring charges;
- Non-GAAP operating expenses exclude \$441 million of amortization of acquisition-related intangible assets, \$243 million of share-based compensation expense, \$14 million of acquisition-related costs, and \$12 million of restructuring charges;
- Non-GAAP tax provision is \$4 million higher than GAAP due to the tax effects of the projected reconciling items noted above; and
- Non-GAAP diluted share count includes the impact of the REUs on an if-converted basis, which were not included in projected GAAP diluted share count because their effect is expected to be antidilutive, and excludes the impact of share-based compensation expense expected to be incurred in future periods and not yet recognized in the Company's financial statements, which would otherwise be assumed to be used to repurchase shares under the GAAP treasury stock method.

For the fourth fiscal quarter, capital expenditures are expected to be approximately \$230 million and depreciation is expected to be \$120 million.

The guidance provided above is only an estimate of what the Company believes is realizable as of the date of this release. The guidance also excludes the impact of any additional mergers, acquisitions and divestiture activity that may occur during the quarter. Actual results will vary from the guidance and the variations may be material. The Company undertakes no intent or obligation to publicly update or revise any of these projections, whether as a result of new information, future events or otherwise, except as required by law.

Non-GAAP Financial Measures

In addition to GAAP reporting, Broadcom provides investors with net revenue, net income, operating income, gross margin, operating expenses and other data on a non-GAAP basis. This non-GAAP information includes the effect, where applicable, of purchase accounting on revenues, and excludes amortization of acquisition-related intangible assets, share-based compensation expense, restructuring, impairment and disposal charges, acquisition-related costs, including integration costs, purchase accounting effect on inventory, debt-related costs, gain (loss) on extinguishment of debt, gain (loss) on disposition of assets, income (loss) from discontinued operations and income tax effects of non-GAAP reconciling adjustments. Management does not believe that these items are reflective of the Company's underlying performance. However, internally, these non-GAAP measures are significant measures used by management for purposes of evaluating the core operating performance of the Company, establishing internal budgets, calculating return on investment for development programs and growth initiatives, comparing performance with internal forecasts and targeted business models, strategic planning, evaluating and valuing potential acquisition candidates and how their operations compare to the Company's operations, and benchmarking performance externally against the Company's competitors. The presentation of these and other similar items in Broadcom's non-GAAP financial results should not be interpreted as implying that these items are non-recurring, infrequent or unusual. Broadcom believes this non-GAAP financial information provides additional insight into the Company's on-going performance and has therefore chosen to provide this information to investors for a more consistent basis of comparison and to help them evaluate the results of the Company's on-going operations and enable more meaningful period to period comparisons. These non-GAAP measures are provided in addition to, and not as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. A reconciliation between GAAP and non-GAAP financial data is included in the supplemental financial data attached to this press release.

(1) Amounts represent licensing revenue not included in GAAP net revenue as a result of the effect of purchase accounting for acquisitions.

(2) The number of shares used in the diluted per share calculations on a non-GAAP basis excludes the impact of share-based compensation expense expected to be incurred in future periods and not yet recognized in the financial statements, which would otherwise be assumed to be used to repurchase shares under the GAAP treasury stock method.

(3) Days sales outstanding on a non-GAAP basis includes the impact of the acquisition-related purchase accounting revenue adjustment and excludes the impact of accounts receivable related to discontinued operations.

(4) Inventory days on hand on a non-GAAP basis excludes the impact of purchase accounting on inventory, amortization of acquisition-related intangible assets, share-based compensation expense, restructuring expense and acquisition-related costs.
