**SAN JOSE, Calif.** – March 12, 2020 – Broadcom Inc. (Nasdaq: <u>AVGO</u>), a global technology leader that designs, develops and supplies semiconductor and infrastructure software solutions, today reported financial results for its first quarter of fiscal year 2020, ended February 2, 2020, announced its quarterly dividend and updated guidance.

"Our first fiscal quarter results were in line with our expectations, with our networking, storage and broadband businesses together growing nicely year over year," said Hock Tan, President and CEO of Broadcom Inc. "The fundamental semiconductor backdrop has been improving, and we did not see any material impact on our businesses due to COVID-19 in our first quarter. However, visibility in our global markets is lacking and demand uncertainty is intensifying. As a result, we believe it prudent to withdraw our annual guidance until visibility returns to pre COVID-19 levels."

"We generated over \$2.2 billion in free cash flow in the quarter, which represented 9% growth on a year on year basis," said Tom Krause, CFO of Broadcom Inc. "We ended the first quarter with over \$6.4 billion of cash on hand and our cash flow outlook remains healthy. As a result, we are well positioned to continue to support our dividends to stockholders despite the challenging market backdrop."

<sup>1</sup> The Company is not readily able to provide a reconciliation of the projected non-GAAP financial information presented to the relevant projected GAAP measure without unreasonable effort.

#### **Basis of Presentation**

The Company's financial results include contributions from the Symantec enterprise security business' continuing operations starting in the first quarter of fiscal year 2020. The financial results from businesses that have been classified as discontinued operations in the Company's financial statements are not included in the results presented above, unless otherwise stated.

#### **Non-GAAP Financial Measures**

In addition to GAAP reporting, Broadcom provides investors with net revenue, net income, operating income, gross margin, operating expenses, cash flow and other data on a non-GAAP basis. This non-GAAP information excludes amortization of acquisition-related intangible assets, stock-based compensation expense, restructuring, impairment and disposal charges, acquisition-related costs, including integration costs, purchase accounting effect on inventory, litigation settlements, debt-related costs, gains (losses) on investments, income (loss) from discontinued operations and non-GAAP tax reconciling adjustments. Management does not believe that these items are reflective of the Company's underlying performance. Internally, these non-GAAP measures are significant measures used by management for purposes of evaluating the core operating performance of the Company, establishing internal budgets, calculating return on investment for development programs and growth initiatives, comparing performance with internal forecasts and targeted business models, strategic planning, evaluating and valuing potential acquisition candidates and how their operations compare to the Company's operations, and benchmarking performance externally against the Company's competitors. The exclusion of these and other similar items from Broadcom's non-GAAP financial results should not be interpreted as implying that these items are non-recurring, infrequent or unusual. Free cash flow measures have limitations as they omit certain components of the overall cash flow statement and do not represent the residual cash flow available for discretionary expenditures. Investors should not consider presentation of free cash flow measures as implying that stockholders have any right to such cash. Broadcom's free cash flow may not be calculated in a manner comparable to similarly named measures used by other companies.

Broadcom believes this non-GAAP financial information provides additional insight into the Company's on-going performance. Therefore, Broadcom provides this information to investors for a more consistent basis of comparison and to help them evaluate the results of the Company's on-going operations and enable more meaningful period to period comparisons. These non-GAAP measures are provided in addition to, and not as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. A reconciliation between GAAP and non-GAAP financial data is included in the supplemental financial data attached to this press release.
