**SAN JOSE, Calif.** - June 4, 2020 - Broadcom Inc. (Nasdaq: <u>AVGO</u>), a global technology leader that designs, develops and supplies semiconductor and infrastructure software solutions, today reported financial results for its second quarter of fiscal year 2020, ended May 3, 2020, provided guidance for the third quarter of its fiscal year 2020 and announced its quarterly dividends.

"Second quarter results were in-line with our expectations, and saw limited impact from the effects of COVID-19," said Hock Tan, President and CEO of Broadcom Inc. "Looking ahead, our third quarter guidance for semiconductors reflects a surge in demand from cloud, telecom and enterprise customers, offset by supply chain constraints and an expected substantial reset in wireless. We remain focused on investing in our diverse set of mission critical semiconductor and software franchises, while carefully managing our expenses in this uncertain environment."

"We generated record quarterly free cash flow of over \$3 billion and reinforced our balance sheet, ending the quarter with over \$9 billion of cash," said Tom Krause, CFO of Broadcom Inc. "Given our strong free cash flow generation, healthy balance sheet and enhanced liquidity position, we remain committed to maintaining our dividend while we navigate these unprecedented times."

#### **Basis of Presentation**

The Company's financial results include contributions from the Symantec enterprise security business' continuing operations starting in the first quarter of fiscal year 2020. The financial results from businesses that have been classified as discontinued operations in the Company's financial statements are not included in the results presented above, unless otherwise stated.

#### **Non-GAAP Financial Measures**

In addition to GAAP reporting, Broadcom provides investors with net revenue, net income, operating income, gross margin, operating expenses, cash flow and other data on a non-GAAP basis. This non-GAAP information excludes amortization of acquisition-related intangible assets, stock-based compensation expense, restructuring, impairment and disposal charges, acquisition-related costs, including integration costs, purchase accounting effect on inventory, litigation settlements, loss on debt extinguishment, gain from lapse of indemnification, gains (losses) on investments, income (loss) from discontinued operations and non-GAAP tax reconciling adjustments. Management does not believe that these items are reflective of the Company's underlying performance. Internally, these non-GAAP measures are significant measures used by management for purposes of evaluating the core operating performance of the Company, establishing internal budgets, calculating return on investment for development programs and growth initiatives, comparing performance with internal forecasts and targeted business models, strategic planning, evaluating and valuing potential acquisition candidates and how their operations compare to the Company's operations, and benchmarking performance externally against the Company's competitors. The exclusion of these and other similar items from Broadcom's

non-GAAP financial results should not be interpreted as implying that these items are non-recurring, infrequent or unusual. Free cash flow measures have limitations as they omit certain components of the overall cash flow statement and do not represent the residual cash flow available for discretionary expenditures. Investors should not consider presentation of free cash flow measures as implying that stockholders have any right to such cash. Broadcom's free cash flow may not be calculated in a manner comparable to similarly named measures used by other companies.

Broadcom believes this non-GAAP financial information provides additional insight into the Company's on-going performance. Therefore, Broadcom provides this information to investors for a more consistent basis of comparison and to help them evaluate the results of the Company's on-going operations and enable more meaningful period to period comparisons. These non-GAAP measures are provided in addition to, and not as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. A reconciliation between GAAP and non-GAAP financial data is included in the supplemental financial data attached to this press release.
