Second Quarter Fiscal Year 2010 Business Outlook

Based on current business trends, the outlook for the second fiscal quarter of 2010, ending May 2, 2010, is expected to be as follows:

	GAAP	Reconciling Items	Non-GAAP
Net Revenue	Up 6% to 9%		Up 6% to 9%
Gross Margin	43.0% plus/minus 1ppt.	\$16M	46.5% plus/minus 1ppt.
Operating Expenses	\$122M	\$10M	\$112M
Interest and Other	\$8M		\$8M
Taxes	\$9M		\$9M
Diluted Share Count	244M		248M

Reconciling items include \$15 million of amortization of acquisition-related intangibles and \$1 million of share-based compensation expenses at the Gross Margin line and \$5 million of amortization of acquisition-related intangibles and \$5 million of share-based compensation expenses at the Operating Expenses line.

Capital expenditures are expected to be in the range of \$15 million to \$20 million. Depreciation and amortization are both expected to be approximately \$20 million in the second quarter.

In February 2010, the Malaysian government granted us a tax holiday on our qualifying Malaysian income, which is effective for a 10-year period beginning in our fiscal year 2009. However, as a result of receiving this tax incentive, we will be unable to use, and will need to write down in the second quarter of fiscal year 2010, deferred tax assets of \$6 million that we previously recorded for this jurisdiction.

The guidance provided above is only an estimate of what the Company believes is realizable as of the date of this release. Actual results will vary from the guidance and the variations may be material. We undertake no intent or obligation to publicly update or revise any of these projections, whether as a result of new information, future events or otherwise, except as required by law.

Avago will be presenting at Morgan Stanley's Technology Conference in San Francisco on March 1, 2010 and at Jefferies' Technology Conference in New York on March 10, 2010. Both of these presentations will be webcast and available for replay on the Investors section of Avago's [website](http://www.avagotech.com).

Financial Results Conference Call

Avago Technologies Limited will host a conference call to review its financial results for the first quarter fiscal year 2010, and to provide guidance for the second quarter of fiscal year 2010, today at 2:00 p.m. Pacific Time. Those wishing to access the call should dial 800-638-4817; International 617-614-3943. The passcode is 51632434. A replay of the call will be available through March 3, 2010. Non-GAAP Financial Measures

In addition to GAAP reporting, Avago reports net income or loss, as well as gross margin and operating expenses, on a non-GAAP basis. This non-GAAP earnings information excludes amortization of acquisition-related intangibles, share-based compensation expense, asset impairment charges, restructuring charges, acquired in-process research and development, debt extinguishment (gains) losses, selling shareholder expenses, and the results of discontinued operations. In addition, Avago also discloses Adjusted EBITDA as measured by the indenture governing our outstanding debt securities. Avago believes this non-GAAP earnings information provides additional insight into the Company's on-going performance and has therefore chosen to provide this information to investors for a more consistent basis of comparison and to emphasize the results of on-going operations. These historical non-GAAP measures are in addition to, and not a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. A reconciliation between GAAP and non-GAAP net income (loss) and a derivation of Adjusted EBITDA in accordance with the indenture governing its outstanding debt securities are included in the financial tables attached to this press release.

EBITDA represents net income (loss) before interest expense, provision for income taxes, depreciation and amortization. Adjusted EBITDA is defined as EBITDA further adjusted to give effect to certain items that are required in calculating covenant compliance under our senior subordinated notes indenture as well as under our senior secured credit facility. Adjusted EBITDA is calculated by subtracting from or adding to EBITDA items of income or expense described above. EBITDA and Adjusted EBITDA do not represent net income, as that term is defined under GAAP, and should not be considered as an alternative to net income (loss) as an indicator of our operating performance.

Additionally, EBITDA and Adjusted EBITDA are not intended to be measures of free cash flow available for management or discretionary use as such measures do not consider certain cash requirements such as capital expenditures, tax payments and debt service requirements. EBITDA and Adjusted EBITDA as presented herein are not necessarily comparable to similarly titled measures used by other companies.
