Avago Technologies to Acquire Broadcom for \$37 Billion

- *Creates the world's leading diversified communications semiconductor company*
- *Transaction consideration of \$17 billion in cash and equity valued at approximately \$20 billion as of May 27, 2015*
- *\$750 million of projected annual cost synergies expected to be achieved within 18 months*
- *Immediately accretive to non-GAAP EPS and free cash flow*

SINGAPORE and IRVINE, CA – May 28, 2015 – Avago Technologies Limited (NASDAQ: AVGO) and Broadcom Corporation (NASDAQ: BRCM) today announced that they have entered into a definitive agreement under which Avago will acquire Broadcom in a cash and stock transaction that values the combined company at \$77 billion in enterprise value. Upon completion of the acquisition, the combined company will have the most diversified communications platform in the semiconductor industry, with combined annual revenues of approximately \$15 billion.

“Today’s announcement marks the combination of the unparalleled engineering prowess of Broadcom with Avago’s heritage of technology from HP, AT&T, and LSI Logic, in a landmark transaction for the semiconductor industry,” said Hock Tan, President and Chief Executive Officer of Avago. “The combination of Avago and Broadcom creates a global diversified leader in wired and wireless communication semiconductors. Avago has established a strong track record of successfully integrating companies onto its platform. Together with Broadcom, we intend to bring the combined company to a level of profitability consistent with Avago’s long-term target model.”

“This transaction benefits all of Broadcom’s key stakeholders,” remarked Scott McGregor, President and Chief Executive Officer of Broadcom. “Our customers will gain access to a greater breadth of technology and product capability. For our shareholders, the transaction provides both compelling up-front value as well as the opportunity to participate in the future upside of the combined business.”

“When Henry Nicholas and I founded Broadcom, we had a vision of creating the world leader in communications semiconductors. Today’s announcement is a continuation of that vision and we could not think of a better partner for the future than Avago,” stated Dr. Henry Samueli, Co-Founder, Chief Technical Officer and Chairman of the Board of Broadcom.

“The culture that Henry and I created when we founded Broadcom was demanding, execution-oriented, and certainly not guaranteed to mesh with the average technology company,” said Dr. Henry T. Nicholas, Co-founder and past CEO of Broadcom. “It was, however, a culture that enabled Broadcom to grow exponentially and emerge as the market leader in every major market segment involving broadband communications. In Avago, we have found a culture and a management team that embody the best of the philosophies on which Broadcom was founded, together with a fast-paced, no-nonsense, process-driven business culture that we need to take our combined company to the next level. I am confident that, under the visionary leadership of Hock Tan, the combined company will realize its potential to be the world’s greatest semiconductor company.”

Following completion of the transaction, Mr. Tan, President and Chief Executive Officer of Avago, will continue to serve as President and Chief Executive Officer of the combined company, which will adopt the name Broadcom Limited. Dr. Samueli will join the board of the combined company as will another director from Broadcom. In addition, Dr. Samueli will be appointed Chief Technology Officer of the combined company. Dr. Nicholas will serve in a strategic advisory role within the combined company, reporting to Mr. Tan.

Transaction Structure and Terms

Under the terms of the definitive agreement, Avago will acquire Broadcom for \$17 billion in cash consideration and the economic equivalent of approximately 140 million Avago ordinary shares, valued at \$20 billion as of May 27, 2015, resulting in Broadcom shareholders owning approximately 32% of the combined company. Based on Avago's closing share price as of May 27, 2015, the implied value of the total transaction consideration for Broadcom is \$37 billion.

Holders of outstanding shares of Broadcom will have the ability to elect to receive, for each Broadcom share held: (i) \$54.50 in cash; (ii) 0.4378 ordinary shares in a newly-formed Singapore holding company ("HoldCo"); (iii) a restricted equity security that is the economic equivalent of 0.4378 ordinary shares of HoldCo that will not be transferable or saleable for a period of one to two years after closing; or (iv) a combination thereof. The shareholder election will be subject to a proration mechanism, which is anticipated to result in payment in the aggregate in the range of 50% cash and 50% equity in the transaction. Upon closing of the transaction, Avago shareholders will exchange their ordinary shares for HoldCo ordinary shares on a one to one basis.

No trading market is expected to develop for the restricted equity. The receipt of the restricted equity is expected to be tax free to former Broadcom shareholders, and if a requested tax ruling is obtained from the IRS, the receipt of HoldCo ordinary shares will also be tax free to the Broadcom shareholders. Receipt of HoldCo ordinary shares by former Avago shareholders is expected to be tax free.

Avago intends to fund the \$17 billion of cash consideration with cash on hand from the combined companies and \$9 billion in new, fully-committed debt financing from a consortium of banks.

The transaction has been unanimously approved by the boards of directors of both companies, as well as a special committee of the independent directors of Broadcom. Dr. Samueli and Dr. Nicholas, the founders of Broadcom, have signed support agreements to vote to approve the transaction. Closing of the transaction is expected by the end of the first calendar quarter of 2016, and is subject to regulatory approvals in various jurisdictions, as well as the approval of Avago's and Broadcom's shareholders.
