SAN JOSE, Calif. – December 12, 2019 – Broadcom Inc. (Nasdaq: <u>AVGO</u>), a global technology leader that designs, develops and supplies semiconductor and infrastructure software solutions, today reported financial results for its fourth fiscal quarter and fiscal year ended November 3, 2019, provided guidance for its fiscal year 2020 and announced quarterly dividends. The Company completed its acquisition of the Symantec Enterprise Security business on November 4, 2019. The financial results provided below do not include any contribution from the Symantec Enterprise Security business.

"Fiscal year 2019 concluded as expected. Our semiconductor solutions segment continued to work its way through a cyclical correction. This was more than offset by our infrastructure software segment, which delivered healthy results benefitting from the integration and performance of our CA business," said Hock Tan, President and CEO of Broadcom Inc. "Looking to fiscal 2020, we remain well-positioned across our technology franchises. We continue to believe that our core semiconductor business is bottoming and will return to year over year growth in the second half of our fiscal year. In addition, we expect to benefit from the integration of the Symantec Enterprise Security business into what is otherwise expected to be a stable infrastructure software segment in fiscal 2020."

"We achieved record profitability in fiscal 2019, including free cash flow of over \$9 billion, despite a challenging market backdrop for our semiconductor solutions segment. As a result, we are raising our target dividend by 23 percent to \$3.25 per share per quarter for fiscal year 2020," said Tom Krause, CFO of Broadcom Inc. "Looking ahead to next year, we expect our adjusted EBITDA to expand by more than \$1 billion, while we focus our capital returns on cash dividends, with excess cash going towards debt pay down."

<sup>1</sup> The Company is not readily able to provide a reconciliation of the projected non-GAAP financial information presented to the relevant projected GAAP measure without unreasonable effort.

The financial results from businesses that have been classified as discontinued operations in the Company's financial statements are not included in the results presented above, unless otherwise stated.

#### **Non-GAAP Financial Measures**

In addition to GAAP reporting, Broadcom provides investors with net revenue, net income, operating income, gross margin, operating expenses, cash flow and other data on a non-GAAP basis. This non-GAAP information includes the effect, where applicable, of purchase accounting on revenue, and excludes amortization of acquisition-related intangible assets, stock-based compensation expense, restructuring, impairment and disposal charges, acquisition-related costs, including integration costs, purchase accounting effect on inventory, litigation settlements, impairment on investment, debt-related costs, gains on investments, income (loss) from discontinued operations and non-GAAP tax reconciling adjustments. Management does not believe that these items are reflective of the Company's underlying performance. Internally, these non-GAAP measures are significant measures used by management for purposes of evaluating the core operating performance of the Company, establishing internal budgets, calculating return on investment for development programs and growth initiatives, comparing performance with internal forecasts and targeted business models, strategic planning, evaluating and valuing potential acquisition candidates and how their operations compare to the Company's operations, and benchmarking performance externally against the Company's competitors. The exclusion of these and other similar items from Broadcom's non-GAAP financial results should not be interpreted as implying that these items are non-recurring, infrequent or unusual. Free cash flow measures have limitations as they omit certain components of the overall cash flow statement and do not represent the residual cash flow available for discretionary expenditures. Investors should not consider presentation of free cash flow measures as implying that stockholders have any right to such cash. Broadcom's free cash flow may not be calculated in a manner comparable to similarly named measures used by other companies.

Broadcom believes this non-GAAP financial information provides additional insight into the Company's on-going performance. Therefore, Broadcom provides this information to investors for a more consistent basis of comparison and to help them evaluate the results of the Company's on-going operations and enable more meaningful period to period comparisons. These non-GAAP measures are provided in addition to, and not as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. A reconciliation between GAAP and non-GAAP financial data is included in the supplemental financial data attached to this press release.

(1) Amounts represent licensing revenue not included in GAAP net revenue as a result of the effect of purchase accounting for acquisitions.

Non-GAAP adjustment for the number of shares used in the diluted per share calculations excludes the impact of stock-based compensation expense expected to be incurred in future periods and not yet recognized in the financial statements, which would otherwise be assumed to be used to repurchase shares under the GAAP treasury stock method. For the fiscal quarter and fiscal year ended November 3, 2019, non-GAAP adjustment included the impact of Mandatory Convertible Preferred Stock that was antidilutive on a GAAP basis. For the fiscal year ended November 3, 2018, non-GAAP adjustment included the impact of LP Units that were antidilutive on a GAAP basis.
